Wettenhalls Implements ISIS 3PL Java 4.2

Wettenhalls has expanded its growing Warehousing Operations in Melbourne Australia where they have implemented the 3PL Java 4.2 release of ISIS at the new Laverton facilities in the West of Melbourne. The facility boasts over 15,000 pallet rack locations and a dedicated Cross Dock facility. Wettenhalls have introduced multiple Clients into the facility and all are operating on the ISIS 3PL WMS with fully Integrated Activity Based Costing and 3PL Integrated Billing module managing the Operations.

The Wettenhalls Group span the entire country with a network of 14 sites, a fleet including 180 trucks and over 300 trailers, a workforce of 500 people and over 700 clients. Wettenhalls move over 1 million tonnes of freight with a turnover in excess of \$120 million each year. The Wettenhalls Group is now one of Australia's leading national providers of fully integrated 'end to end' logistics services.

Wettenhalls is a rapidly growing provider of efficient, multimodal logistics solutions in Australia. With an extensive national and regional network, and a commitment to operational excellence, safety and compliance, the company philosophy of 'Keep Moving Forward' is embraced and encouraged across every element of the Group, delivering a total and unique End to End service.

Both Wettenhalls are Microlistics are proud to work together to maintain their business goal, "Keep Moving forward".

Microlistics:

Microlistics display world leadership in the design, development and implementation of Warehouse Management Systems and are based in Melbourne Australia.
